

USING MOODLE APP

LEARNING.SAGECOUNSELING.NET

Course material can be accessed and reviewed, and coursework can be submitted utilizing the cell phone application available from Moodle.

LOGIN

1. Enter the SAGE URL in the **site address** field: <https://learning.sagecounseling.net>

2. Login with your username and password. If needed, use the **Forgot your username or password?** link.

DASHBOARD

Any groups that you are enrolled in will be displayed on your home screen or "Dashboard," accessible by clicking on the  gauge icon.

1:28 [signal icons] [battery icon]

SAGE Learning Management Sys... [search icon] [globe icon]

Dashboard Site home

Timeline

Search by activity type or name [search icon] [clear icon]

Next 30 days [dropdown arrow] [list icon]

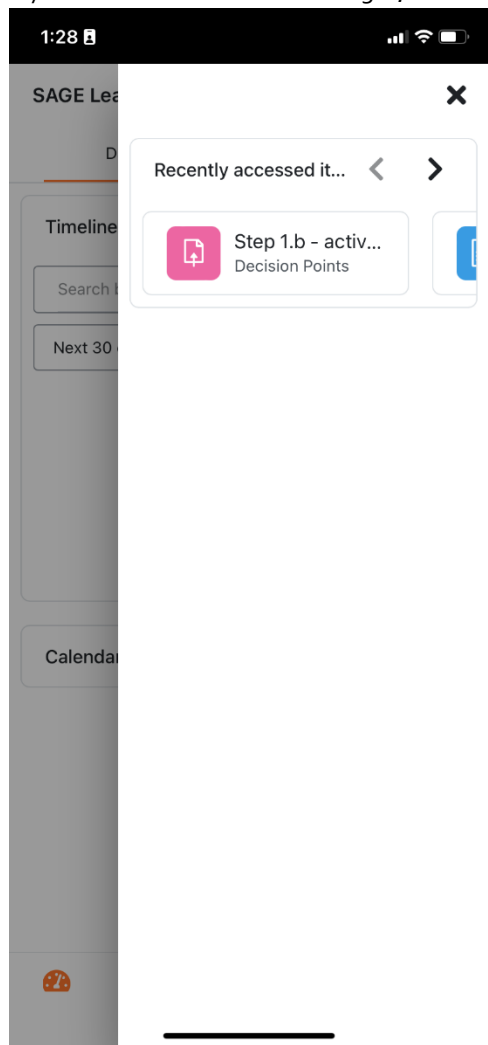

No activities require action [back arrow]

Calendar [right arrow]

[calendar icon] [graduation cap icon] [messaging icon with 1 notification] [bell icon] [more icon]

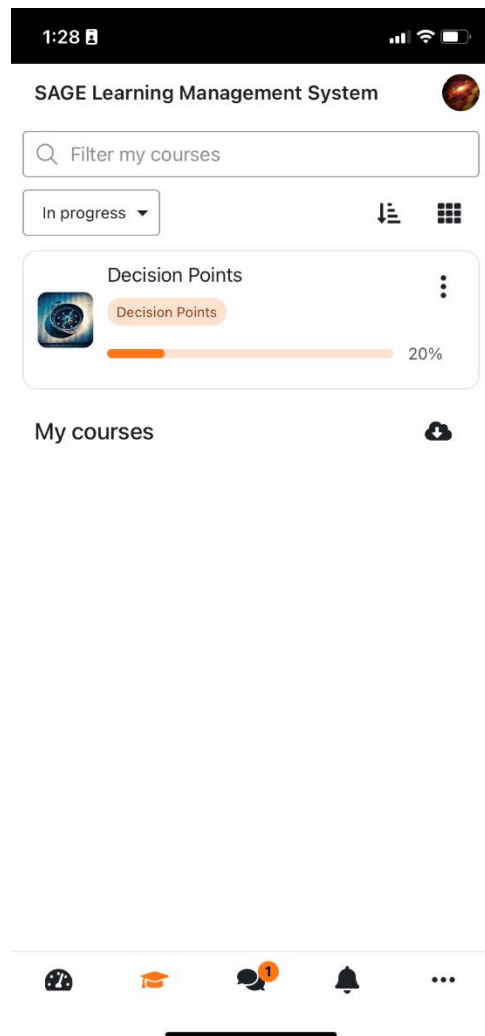

If you click on the arrow to the right, it will open the most recently accessed coursework.

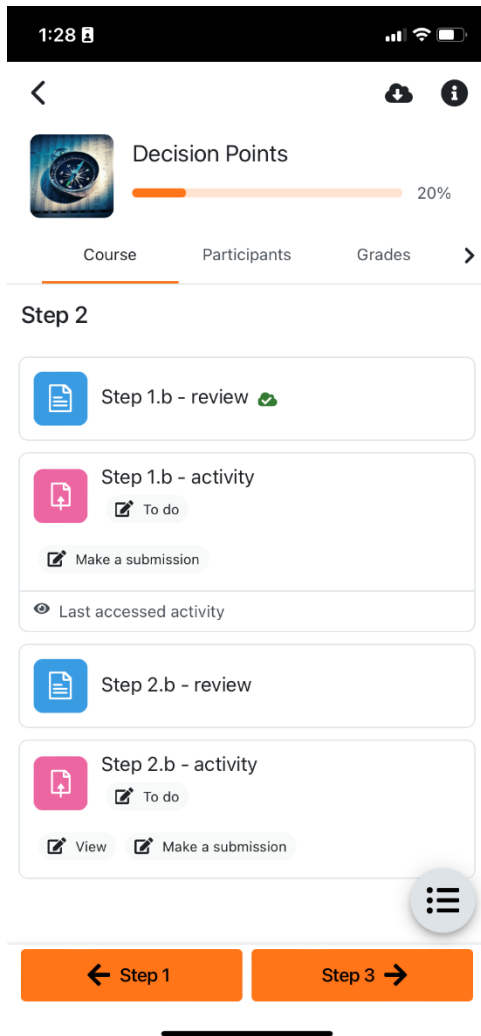

You can navigate through sections, as appropriate depending on your current group or treatment.

COURSE

Clicking on the  graduation cap will open your courses.

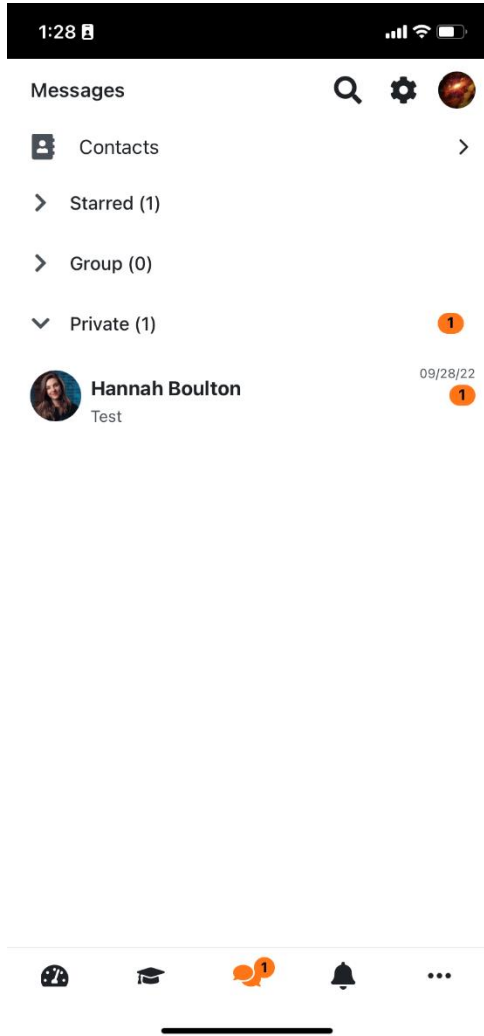

When you click onto a course/group, its contents will display. The contents will include the available material based on what you have been covering in your group

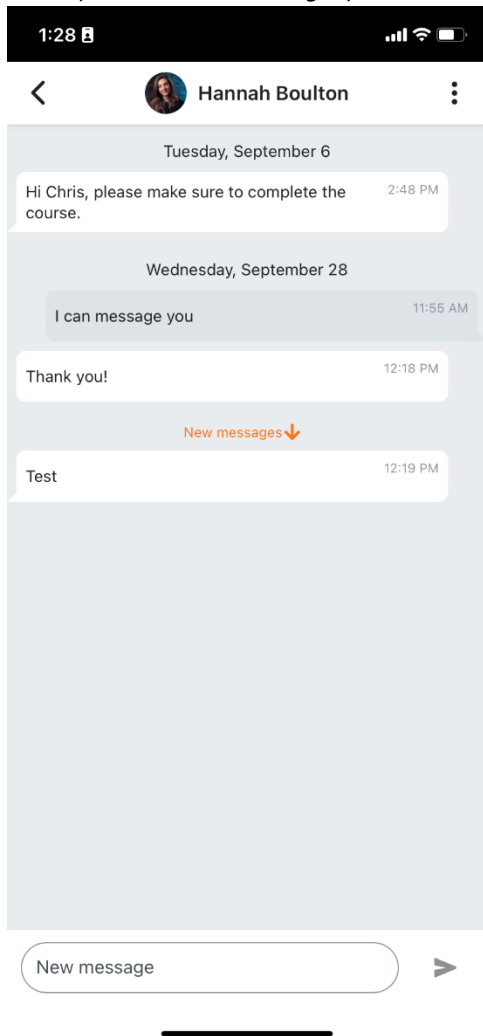

MESSAGES

Messages can be sent to and from the clinician conducting your groups. You will receive notification badges at the bottom of the screen on the  speech bubble icon. Notification settings on your phone will be dependent on

your settings on your device.

When you select the message, your chat thread with that individual will display

NOTIFICATIONS

If you've received any notifications regarding your assignments or courses, they will be found on the notifications page by clicking on the  bell icon.

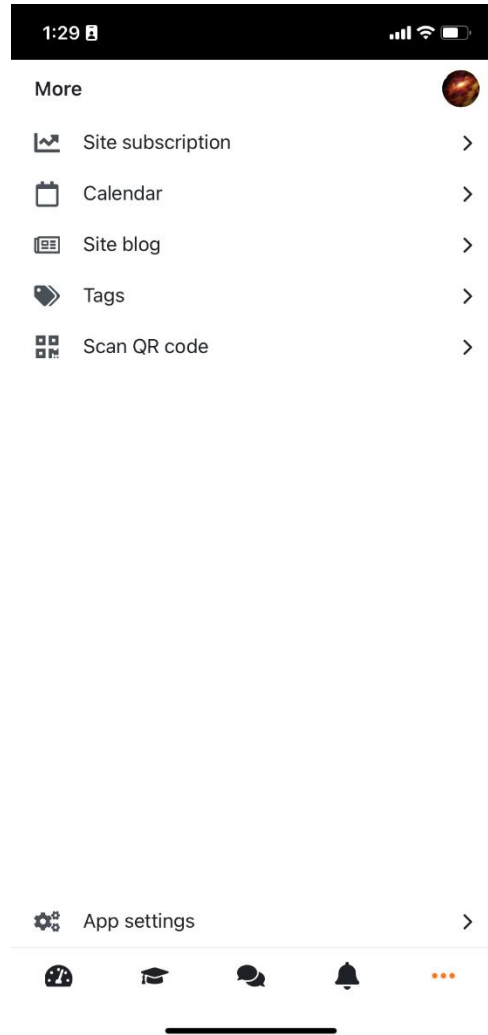

There are no notifications.

MORE

Find additional options and settings in the **More** "... "section

App settings are accessible from the bottom of this screen by clicking on  **App Settings**
